Pik Rite's Pepper Harvester features:

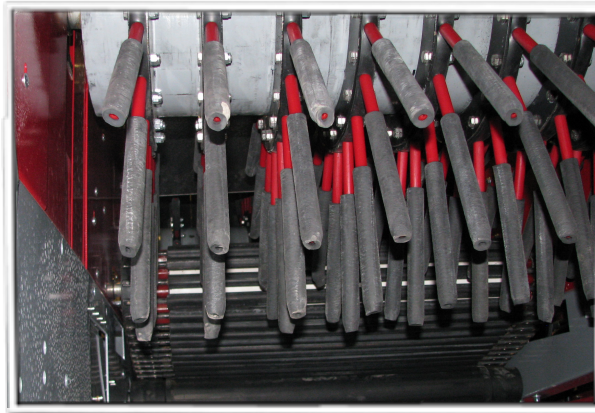

- Sickie Bar or Disk Header for single or double rows
- Dual-forced Balance Shaker System
- Rear cleaning table (enables crew members to clean any fruit left on the vines after passing through the shakers)

The sickie bar detaches the plant just above the surface to ensure minimal disturbance to the bed and to minimize dirt intake.

The dual-forced balance shaker system with finger covering protects the fruit and prevents crop damage.
