Medium Duty Series

Available in hardox, mild steel or aluminum. These medium duty bodies are perfect for small excavation jobs or municipal and road care applications.

Options

Flatbed with removable stake sides

- Versatile option for maintenance crews needing to haul various types of materials.

Unmounted dumps

- These dumps are ready to mount on a used chassis.

Push-off bodies perfect for moving roadwork

- This option keeps the truck bed down at all times for safe navigation under power lines and trees. Instability on uneven ground not a problem because the load is always stable.

Customizable to customer needs

- Talented and experienced sales staff and engineers are available to help design products that will meet customer needs.

Our innovative push-off technology is designed to avoid the liabilities caused by unstable loads on uneven terrain. It is a game-changer for low clearance settings.

Benefits

Hydraulic Control Options
- External controls and wireless remote options available for precise unloading.

Stability
- Low center of gravity still permits unloading on rough terrain.

Greater Unloading Control
- The pusher combined with a high lift tailgate allow metering of materials for even application

Low Clearance
- No worries about operators forgetting to lower the bed under wires.
- Unload material closer to its final location on low clearance jobs.

Municipal Solutions
- Safe to unload while moving.
- Perfect for winter road treatment.
